

BIOGRAPHY

Christopher Stevens,
Manager, NASA New Millennium Program
Jet Propulsion Laboratory

Christopher Stevens has 28 years experience in the development of space instrumentation. Currently, Program Manager of NASA's New Millennium Program to develop advanced technologies and validate them in space, thereby providing new capabilities for NASA science missions and reducing the cost of risk for the first users. Previously, Manager of JPL's Space Instruments Implementation in the observational Systems Division responsible for development of instruments for space and Earth science missions. Ph.D, University of Southern California

NASA Project Management Conference
